Parent Partnership Board Activities

April 2022 to June 2022

- NEW STAFF! Isabel Rodriguez – OCCY Community Planner – Parent Leadership Programs
- Oklahoma State Department of Health and Oklahoma Human Services Bi-Annual Collaborative Meeting: *Strengthening Families through Parent Voice Presentation* – Parent Partnership Board Member Sunnie Jamerson and OCCY, Oklahoma Partnership for School Readiness & Children’s Trust Fund Alliance Staff
- Oklahoma Partnership for School Readiness. Oklahoma Early Childhood Research Symposium Panel Presentation: *Innovations in Covid 19: A Discussion of Sustainability* – Parent Partnership Board Member Dr. Lana Turner-Addison
- *Strategic Sharing Workshop* Facilitated by Children’s Trust Fund Alliance and hosted by OCCY for Parent Partnership Board Members and the OU OK Parent Child-Assistance Program (PCAP) Parent Advisors
- OCCY Parent Partnership Board Meetings – April & May

OKLAHOMA JUVENILE COMPETENCY JUNE 2022 UPDATE

- In 2015 SB 457 established the juvenile competency statutes in Oklahoma. 10A O.S. § 2-2-401.1 et. seq.
- 10A 2-2-401.4 directs OCCY to establish procedures for ensuring training and qualifications for credentialed forensic evaluators. OCCY provides a list of credentialed evaluators to the Administrative Office of the Courts annually.

JUVENILE COMPETENCY EVALUATION PROFESSIONAL COMMITTEE

EVALUATOR QUALIFICATIONS:

- Oklahoma license as a psychiatrist, psychologist or physician
- 2000 hours clinical experience, 1000 of those hours post doctoral in the treatment/assessment of children
- Professional experience in conducting psychological evaluations of children
- Complete Juvenile Forensic Evaluator Training including a post-training exam

There are currently five credentialed juvenile forensic evaluators. One is currently not conducting evaluations.

THE EXPENSE OF THE EVALUATIONS:

10A 2-2-401.5 G. states that the expense of the evaluations may be recovered from the child or the child's parent/guardian, if ordered by the court. Except for Tulsa County OCCY has covered the costs for these evaluations since the statute was implemented.

Until recently the Tulsa County Juvenile Bureau employed a credentialed evaluator.

COUNTIES WITH MULTIPLE EVALUATIONS

- 44 of the 77 counties have issued orders for a juvenile competency evaluation.
- Until FY22, Tulsa County Juvenile Bureau had a credentialed evaluator on staff. Not all of Tulsa's information has been reported to OCCY.
- *SFY 22 reported numbers are up to May 31, 2022.*

County	SFY 17	SFY 18	SFY 19	SFY 20	SFY 21	SFY 22
Beckham	-	-	-	-	-	2
Caddo	-	-	-	-	2	-

EVALUATION RESULTS

Category	SFY 17	SFY 18	SFY 19	SFY 20	SFY 21	SFY 22
Competent	6 / 32%	8 / 27%	22 / 57%	14 / 44%	10 / 29%	8 / 23%
Not Competent	13 / 68%	22 / 73%	16 / 42%	18 / 56%	24 / 71%	27 / 77%
Canceled	1	1	0	2	3	1
Pending	0	0	0	0	0	8
Total	20	31	38	34	37	44

• SFY 22 reported numbers are up to May 31, 2022.

ISSUES

- Additional credentialed evaluators are needed
- Evaluations are not being completed within 30 days
- Expert witness testimony cost
- No remediation services are available for those found Not Competent

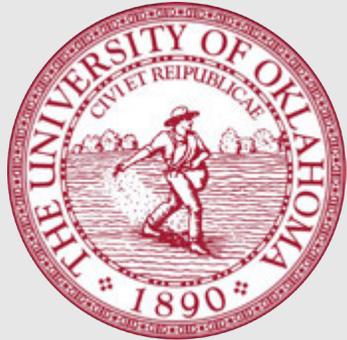

PARENT-CHILD ASSISTANCE PROGRAM

THE
OKLAHOMA
PARENT-
CHILD
ASSISTANCE
PROGRAM
(PCAP)

THE OK PCAP PROJECT: GOAL & PURPOSE

To replicate and evaluate an established, evidence-informed intervention for pregnant and parenting women with substance use disorders to improve the well-being of Oklahoma children, families, and communities.

ROLE

- Research consultant
- Lived experience expert
- Strategic Sharing

CONSULTATION

- Study design
- Study and program implementation
- Data analysis and interpretation
- Dissemination and communication

The Parent-Child Assistance Program (PCAP)

- Evidence-informed program from WA state, initially developed in the 1990s
- Intensive case management and home visiting model
- Long duration - 3 years
- Small caseloads -16 women
- Theoretical bases - Relational Theory, Stages of Change, and Harm Reduction

The Parent-Child Assistance Program (PCAP) Goals

1

Assisting mothers in obtaining treatment and staying in recovery

2

Linking mothers to community resources that will help them build and maintain healthy, independent family lives for themselves and their children

3

Preventing future drug and alcohol use during pregnancy

Need in Oklahoma

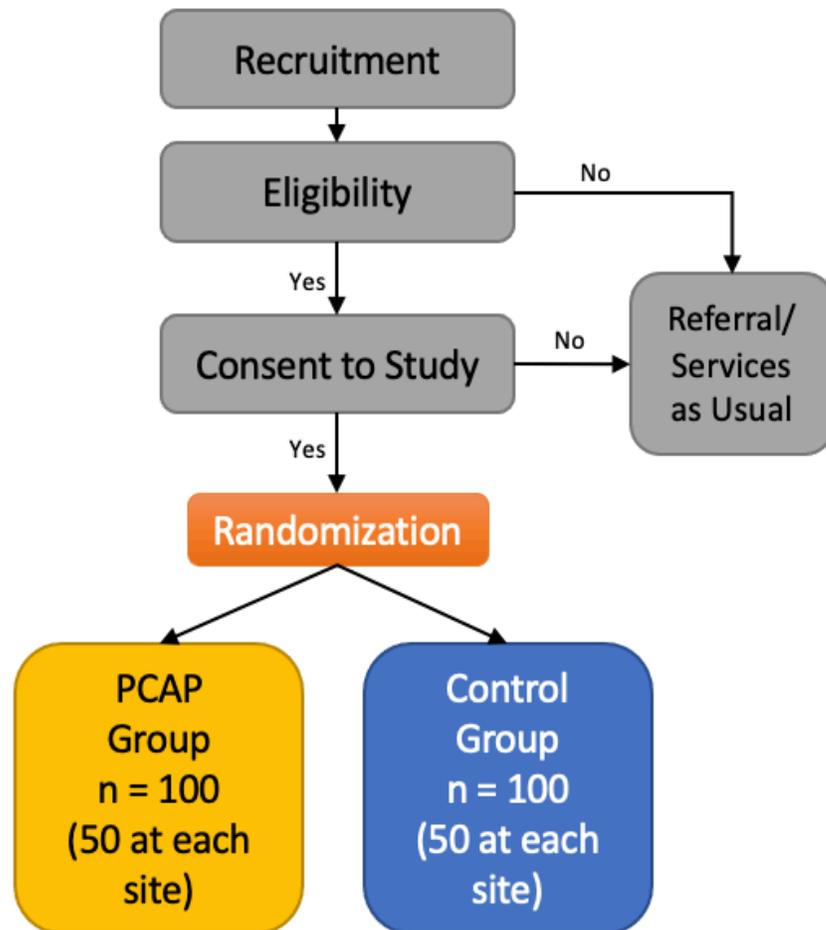

High rate of substance use disorders

Oklahoma providers wrote 79 opioid prescriptions for every 100 persons—compared 51 prescriptions per person in US

Parental substance use a risk factor in more than half of all child maltreatment cases

Rates of substance-exposed newborns increasing

Highest incarceration rate for women in the nation, most related to drug offences; nearly 2/3 of women in prison are mothers

PCAP STUDY

Goal: Establish PCAP as an *evidence-based program* through rigorous evaluation to support spread, replication, and financing.

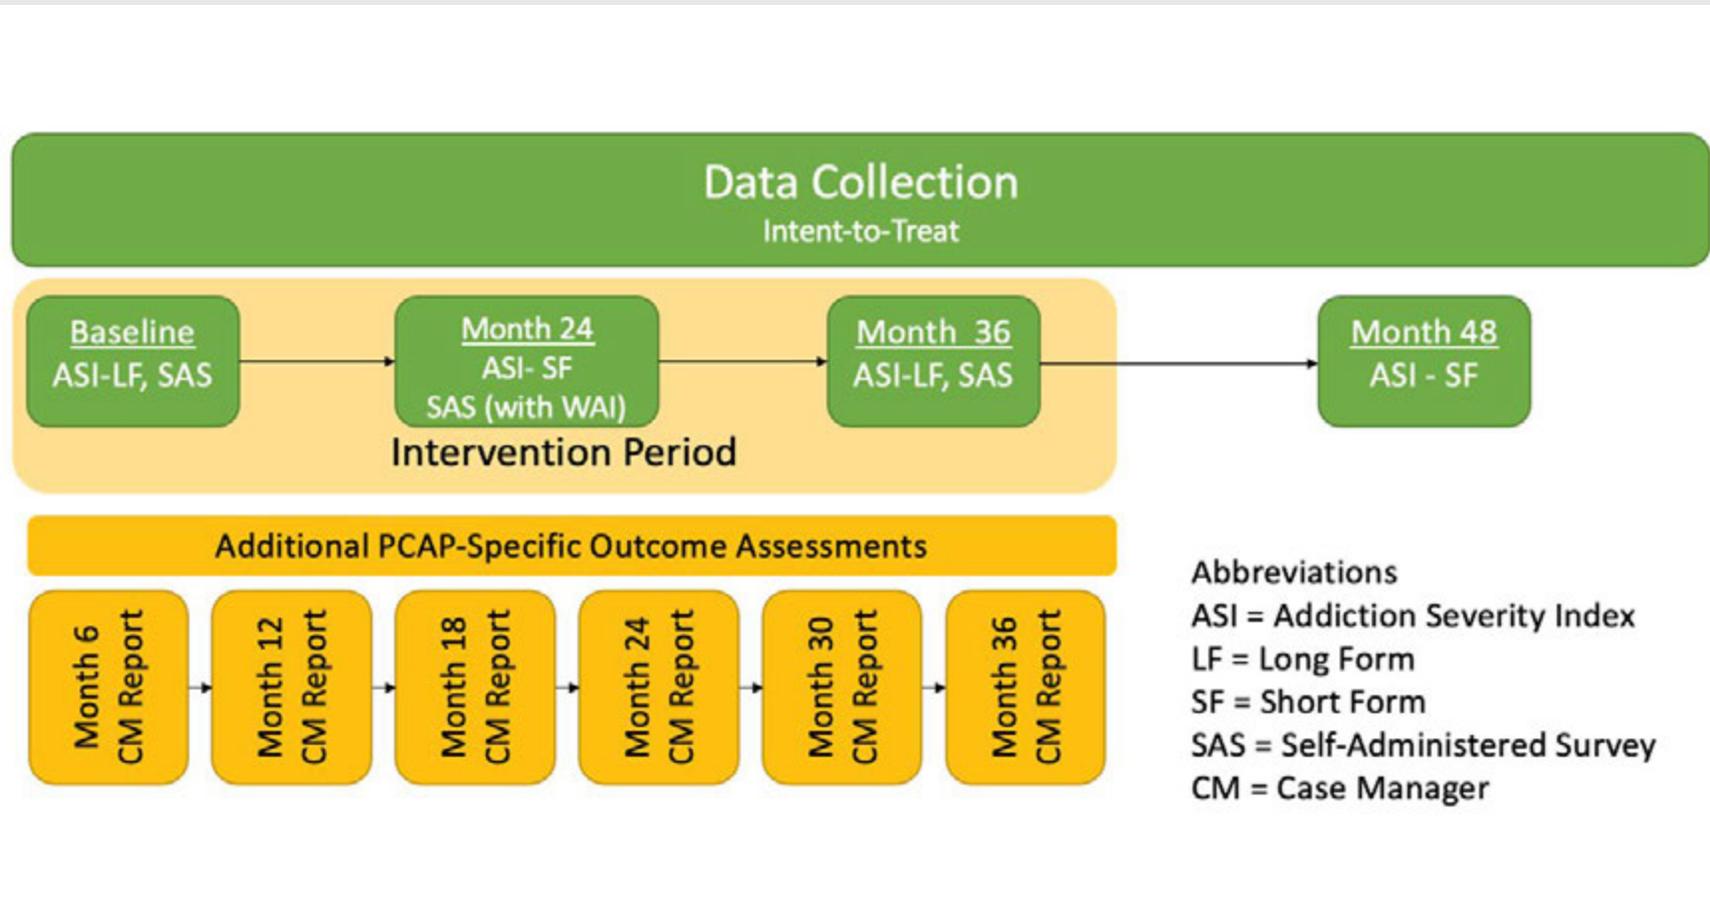

Evidence-based programs are established as such through experimental (randomized control trials) or quasi-experimental studies.

Federal legislation (e.g., MIECHV, FFPSA) increasingly ties federal funding to interventions that are evidence-based.

Randomization allows researchers to isolate the impact of a program on outcomes of interest to policymakers.

Treatment participants receive PCAP, and control group participants are referred to services in the community (services as usual, were it not for this study).

Data Collection Schedule and Content

Addiction Severity Index (ASI)

Semi-structured interview designed to provide important information about aspects of a client's life which may contribute to her substance abuse problem

Original 5th Edition ASI Sections

- General Information
- Alcohol and Drug Use & Family Planning
- Legal Status
- Medical Status
- Psychiatric Status
- Employment/Support Status

The UW-ASI adds: (including some of our own questions)

- Target Child, Other Biological Children
- Community Services
- Family History expanded to include Childhood History

The Self—Administered Survey (SAS)

Criminal
justice
involvement

PCAP Outcomes from WA: Pre- and Post-Design

Cost Savings

From:

- Reduced use of child welfare services
- Reduced use of public assistance
- Increased employment and education
- Fewer subsequent alcohol- and drug-exposed infants
